

Pediatric Associates of Rochester Hills, PC

William J. Chung, MD

930 West Avon Road, Suite 17

Rochester Hills, MI 48307

ATTENTION ALL NEW PATIENTS:

It is your responsibility to call your insurance company before coming to our office to make sure that they cover immunizations and routine well exams. Some insurance companies do not pay for these services. Some insurance companies will only pay a portion per year and some do not cover any. We do not know this information until claims are billed. We do offer immunizations through the State of Michigan's Health Department in our office if your insurance does not cover these. You must inform us that you want Health Department immunizations *before* they are administered. You will owe a nominal fee for the administration of these immunizations.
